# WHAT IS A WEDDING CONTENT CREATOR?

Unlike a wedding videographer who uses broadcast quality cameras to produce a film designed to be watched on TV, Content Creators use iPhones to shoot content which is designed to be watched on a phone, or on social media.

Because the content is phone-ready, the turnaround is almost instant, so you will receive an unlimited amount of unedited video and pics – the very next day after your wedding.

This means you and your guests can stay phone-free, safe in the knowledge we're capturing everything you would (and more!)

You can live in the moment, and then we help you re-live it immediately afterwards.

Rather than end up with a lengthy film you might only watch once a year, you will receive a phone full of footage, which will always be at your fingertips to watch yourself and easily show and share with friends and family, PLUS a selection of gorgeous edited films too.

# WHAT DO I GET?

Lovell Films provides TWO content creators with every package – one to concentrate on film and one to concentrate on pictures: therefore you get double the content!

Expect to wake up the day after your wedding to all of your raw videos and pictures – sent via a digital link – plus the following edited videos:

- A 60-second teaser video
- Your ceremony in full
- Your speeches in full

Then, within 14 days of your wedding you will also receive:

- A 3-minute highlight film of the day set to a song of your choice
- A BTS video of content filmed during your photoshoot – set to a song of your choice
- An additional edited video or social media-ready reel of your choice
- All content is supplied on USB

### Highly recommend Lovell Films!

We are so pleased we chose to have Jo and Jack capture our wedding day. Throughout the entire planning process they have been amazing, always very responsive, super friendly and professional. We chose the package to capture our full day which was incredible as we got over 1000 raw clips back, from bridal prep, groom and groomsman shots, guests arriving, right through to first dance and party time! On the day you are so caught up in the moment that you don't even pick up on the little details you have spent months/years meticulously planning but they captured it all. It's lovely to be able to sit down in the days straight after the wedding and be able to re-live the day all over again. Jo was very quick to get our edited videos back to us too, and they are perfect, we are so happy with them. She listened to exactly what we wanted and could not be happier.

Such good value for money & we would highly recommend Lovell Films, thank you so much!

### **Best thing we got for our wedding!**

Lovell films is the best thing we hired for our wedding. Jo & Jack were so professional and absolutely lovely. We loved having them. It was the best thing to open pictures and videos straight away the morning after. The best start to the first morning as Mr & Mrs. Could not recommend anything more than these for anyone else.
